Full stack web developer with a passion for creating web experiences unique to a given client. With experience in Ruby on Rails and Javascript based programming and a background in Theatre, I discovered web development through a marketing and social media management position where I established an eblast creation and purchasing service. I bring strong skills in team-building and leadership that contribute to and reinforce a positive, safe, and creative atmosphere, ultimately producing the strongest results for a given task or client.

## TECHNICAL SKILLS

Ruby, Ruby on Rails, Sinatra, SQL, HTML, CSS, SCSS, Javascript, React, Redux, Angular 2, ActiveRecord, Git, Jira, GitHub, Doubleclick for Publishers (Google Ad Manager), Bootstrap, and BrowserStack

## EMPLOYMENT HISTORY

**Forbes**, Jersey City, NJ

Junior Engineer, *June 2018 - Present*

*Awarded Employee of the Month - November 2018*

- + Collaborated with the Special Features Team to create exciting and unique React applications for clients
- + Utilized Doubleclick for Publishers (Google Ad Manager) to create advertising templates for the Ad Operations team
- + Provided solutions for tickets via Jira to improve functionality and user experiences while meeting sprint deadlines
- + Updated and maintained legacy code, while also creating new components for regular and premium articles in Angular 2
- + Cross browser checked all applications, templates, and ticket updates via BrowserStack and wrote/updated unit tests for new components
- + Developed documentation for various repos in GitHub and 'How To' documentation for other teams new to products

**Theatre Row**, New York, NY

Marketing and Social Media Manager, *April 2016 - June 2018*

- + Promoted to Marketing and Social Media Manager based on my longevity with the company and consistent display of efficiency on the job
- + Launched and managed e-blast marketing program with HTML email creation and sales monitoring
- + Established and managed social media platforms forms, including Facebook, Twitter and Instagram
- + Monitored user interactions and presented weekly analytics data, quarterly sales report and user interaction statistics
- + Integrated the marketing needs with the box office needs by creating new events in the STAR system for clients.

**Drew Overcash Music**, New York, NY

Freelance Musical Theatre Composer, *January 2012 - Present*

- + Composed two two-act musicals (one under a Broadway development contract)
- + Produced two concert series (*Twenty-Somethings* and *Exposed*) and over 30 individual concerts at venues in New York
- + Orchestrated arrangements for other songwriters with bands of up to 10 musicians

## TECHNICAL PROJECTS

**Dash** - [Github](#) | [Demo](#)

*Dash brings people together and promotes user interactions through user created events and invitations.*

- + Composed a React frontend design with class and presentational components based on the needs of the app
- + Integrated D3.js to create a bubble chart of user friend categories
- + Fused custom backend using Ruby on Rails with Filestack as an online host of user images and ActionMailer to send invitations
- + Authenticated current users via backend and stored user identification in local storage

**Bad News Bears** - [Github](#) | [Demo](#)

*A interactive and fun platform where users share their bad ideas and vote on those of others.*

- + Created custom CSS to design frontend with both animated and stationary components
- + Shaped graphs using Chart.js to track user's votes
- + Built APIs, using Ruby on Rails and the MVC pattern, that will continue to grow as more users join

**Task Cheetah** - [Github](#) | [Demo](#)

*Become a cheetah! Users can help other cheetahs with their tasks and post tasks for cheetah points.*

- + Configured full Ruby on Rails application with full CRUD functionality
- + Fashioned custom CSS to design a unique and fun frontend for users to explore
- + Presented analytical data based on user interaction to administrative users

## EDUCATION

**Flatiron School** - New York, NY - *Graduation: 2018*

- + Full Stack Web Development, Ruby on Rails and Javascript (Vanilla JS and React/Redux) online program

**Codecademy** - Online Certificate Program - *Completion: 2017*

- + Website Development with HTML and CSS

**Bradley University** - Peoria, IL - *Graduation: 2010, Magna Cum Laude, GPA: 3.7*

- + B.S. Theatre and Vocal Performance; Leadership Studies minor
